

**ANNUAL CONFERENCE 2010
28 SEPTEMBER 2010, LIVERPOOL**

**'TRANSLATION & COMMERCIALISATION OF
REGENERATIVE THERAPIES'**

PROGRAMME & SPONSORSHIP

**Moving Forward:
The Northern Way**

EVENT: Annual Conference 2010

‘Translation & Commercialisation of Regenerative Therapies’

Date: Tuesday 28 September 2010
Time: 9.30am-5.00pm
Venue: Merseyside Maritime Museum, Albert Dock, Liverpool, L3 4AQ

The regeNer8 annual meeting 2010 is a one day meeting with a focus on the translation and commercialisation of regenerative therapies. Come and hear from respected industry leaders and see how regeNer8 is promoting translation in the region with a showcase of regeNer8-funded projects.

This day is aimed at academics, clinicians and industry representatives who are in the field of regenerative medicine. We welcome existing regeNer8 members as well as new representatives from the wider regenerative medicine community that would like to engage with like minded delegates.

Keynote speakers include Dr Andrew Lynn, CBO at TiGenix who will present ‘Commercialisation of a regenerative therapy’ and Margaret Parton, formerly Chief Executive Officer of the NHS Technology Adoption Centre, who will present ‘How will we adopt regenerative therapies’.

Other presentations include those being made by representatives of completed regeNer8 projects which include:

- Platform technology for robust growth of 3D skin constructs
- Optimisation and validation of a novel bio-processing system for cellular therapies
- Development of novel osteochondral implant

We have also allocated time slots for networking in the exhibition area so that delegates have the opportunity to speak to other contact from the sector.

The event is free but you must register your place by contacting Rekha Parmar on 0113 393 0933 or by emailing r.e.parmar@leeds.ac.uk

Please note that there is a no show charge of £25+VAT for registrants who do not attend on the day.

PROGRAMME

9.30-10.30am	Registration, Networking and Exhibition
10.30-10.45am	Welcome & RegeNer8 Update
10.45-11.45am	regeNer8 Project Showcase (Presenters TBC): (1) Acellular allogeneic cardiac valves (2) Isolation, characterisation and bioprocessing of a new dermal cell subpopulation for wound healing and cell therapies (3) Development of a nerve guide product for promoting neural integration and migration (4) A sustainable quality-assured system for assessment of pancreatic islets for product release and transport to geographically distant clinical transplant centres (5) A novel biodegradable construct for tendon regeneration (6) Characterisation and further development of a novel tissue scaffold vehicle for the delivery of regenerative and antibacterial strategies
11.45-12.00pm	Panel Questions
12.00-12.30pm	Keynote: Commercialisation of a Regenerative Therapy Dr Andrew Lynn, Chief Business Officer at TiGenix
12.30-1.45pm	Lunch, Networking and Exhibition
Presentations from regeNer8's completed funded projects (Speakers TBC)	
1.45-2.10pm	Platform Technology for Robust Growth of 3D Skin Constructs Dr Stefan Przyborski, Reinnervate
2.10-2.35pm	Optimisation and Validation of a Novel Bio-Processing System for Cellular Therapies Dr Mary Herbert, Newcastle University
2.35-3.00pm	Development of Novel Osteochondral Implant Dr Paul Genever, York University
3.00-3:15pm	Coffee break
3.15-3.45pm	Keynote: How will we adopt regenerative therapies? Margaret Parton, formerly Chief Executive Officer of the NHS Technology Adoption Centre
3.45-4.00pm	Panel discussion: Shaping the way forward
4.00-5.00pm	Wine & Canapes, Networking and Exhibition

SPONSORSHIP OPPORTUNITIES

We are offering you the opportunity to promote your organisation to all delegates at the 3rd Anniversary event through exhibition space and other promotional activities.

We are also launching at the event, the first publication from regener8 called **regen.**, which is a 24/28 page magazine with all the latest developments in tools and technologies for translational regenerative medicine.

This magazine is circulated to over 100 industry members, over 100 academic member, our clinical members, partners companies and the wider regenerative medicine community across the UK. An example of the front cover is illustrated to the right.

We have the following options available:

Option (1)

Event Sponsor

Exhibition space of 3 x 1m with a table and chair

A4 leaflet in the delegate packs

Full page, full colour advert in **regen** magazine

Literature around the exhibition and networking area

A mention of your company to all delegates in the welcome presentation

Welcome delegates at the start of the networking and social session by giving a 5 minute speech

Cost: £1,250 +VAT

Option (2)

Exhibition space of 3 x 1m with a table and chair

A4 leaflet in the delegate packs

Full page, full colour advert in **regen** magazine

Cost: £975 +VAT

Option (3)

Exhibition space of 3 x 1m with a table and chair
A4 leaflet in the delegate packs
1/2 page, full colour advert in **regen** magazine

Cost: £750 +VAT

Option (4)

Exhibition space of 3 x 1m with a table and chair
A4 leaflet in the delegate packs

Cost: £450 +VAT

Option (5)

Leaflet in the delegate packs

Cost: £150 +VAT

Option (6)

Promotional gift in the delegate packs

Cost: £250 +VAT

Option (6)

Advertising options in **regen**

Full page, full colour advert / advertorial	£500+VAT
1/2 page, full colour advert / advertorial	£350+VAT
Back cover, full colour advert	£800+VAT
Inside front cover, full colour advert	£700+VAT
Inside back cover, full colour advert	£700+VAT

We are open to other suggestions to maximise your brand presence at our event and in **regen**.

For further information on sponsorship opportunities or to book any of the above contact Samantha Davidson on 07772 283 759 or email samantha.davidson@regener8.ac.uk

WHAT IS REGENER8?

The **N8 Centre for Translational Regenerative Medicine** (regeNer8) is one of the five collaborative research centres that have been established by N8 through the Northern Way initiative, to promote scientific, social and economic development starting in the North of England and reaching globally.

The North of England is strongly positioned in Europe as a centre of research excellence in regenerative medicine, leveraging a cluster that uniquely encompasses both stem cell science and tissue engineering. The collaborative regional approach has demonstrably added considerable value to this emergent sector. Backed by the N8, regeNer8 will continue to advance the development of tools and technologies to accelerate therapies through to clinic.

Encompassing the Universities of Newcastle, Durham, York, Sheffield, Manchester, Liverpool and Lancaster, the Centre is hosted by the University of Leeds and managed by a partnership between BITECIC and CBSL.

To date regeNer8 has directly funded nine important research grants which we continue to manage.

Hosting facilitated workshops and actively brokering funding for research, regeNer8 focuses on the tools and technologies arena that underpins the task of bringing therapies forward. We act as a portal for industry, playing our part in growing and consolidating the regenerative medicine community and linking it with the power of the N8 research facilities.

Crucially, regeNer8 is working with other to eliminate market barriers identified in our industry partners:

- Safety and regulatory issues
- Investment and funding and defining the value chain and business model
- Creating and developing the regenerative medicine supply chain

REGENER8 MEMBERS

Industry members include:

AedStem	ImmunoSolv	ReNeuron Group plc
Applicon	Intercytex	Renovo
Applied Biosystems Europe	Interea International	Roslin Cells
Astra Zeneca	Intertek	RTS Life Science
Atrakt	IXC UK LtdJ & J DePuy CMW	Sanofi Aventis
AvantiCell Science	JRI Ltd	Sanyo
Avecia	Kaerus	Sigma-Aldrich Company Ltd
Axordia	KLCE Consulting	Smith & Nephew
BioEden	Labman Automation	Sonovia Ltd
Bioreport Consultancy	Leeds Dental Institute	Stem Cell Developments Ltd
Cell Data Services	LGC	Stempeutics Research Pvt
Cellon UK	Lorien Engineering Solutions	Systagenix Wound
Ceramisys	Merck	Management
Cica Biomedical	Millipore	Technitex
Complement Genomics	Miltenyi Biotec	The Weinberg Group
Covidien	Neotherix	ThermoFisher Scientific
Epistem	Novozymes Biopharma UK	Tissue Regenix
Field Fisher Waterhouse LLP	Nowgen	TrusTech
Fluidigm	Orla Protein Technologies	UMIC
Future Health	Parker Hannifin Ltd	Unicorn Biologics
GE Healthcare	Pfizer Regenerative Medicine	Wego Medical Group
Genzyme Therapeutics	Regentec	
Imagen Biotech	Reinnervate	

Academic members include:

Durham University	University of Liverpool
Lancaster University	University of Manchester
Newcastle University	University of York
University of Leeds	

For a full list of our academic members research centres and institutes click on the following link:
<http://www.regener8.ac.uk/academic-members-research-centres-institutes.html>

NHS and Hospital Partners include

The Leeds Teaching Hospitals NHS Trust	South Tees Hospitals NHS Foundation Trust
Leeds General Infirmary	James Cook University Hospital,
NHSBT Tissue Services, Liverpool	Middlesbrough
University Hospital of South Manchester NHS	The Newcastle upon Tyne Hospitals NHS
Foundation Trust	Foundation Trust
Central Manchester University Hospitals NHS	Freeman Hospital, Newcastle
Foundation Trust	Fertility Centre, Newcastle
Manchester Royal Infirmary	

CONTACTS

To register your place at the event on 28 September 2010 contact:

Rekha Parmar
Secretary/PA to the regeNer8 Operations Director
Email: r.e.parmar@leeds.ac.uk
Tel: 0113 393 0933

To book exhibition space or discuss sponsorship opportunities and **regen** contact:

Samantha Davidson
Marketing Manager
Email: samantha.davidson@regener8.ac.uk
Tel: 0191 519 7416 / 07772 283 759
